

TABLE OF CONTENTS

	Introductionxv
Chapter 1	Overview of BA Activities Throughout the Life Cycle	1
	Adapting the Noble Path	3
	How to Use the Tables	4
	Initiation Phase	6
	Discovery Phase	6
	Construction Phase	29
	Final V & V Phase	29
	Closeout Phase	35
	Placing the IT Project Life Cycle in Perspective: The Spectrum Diagram	40
Chapter 2	Meeting Guide	43
	Planning for the Meeting	43
	Checklist: Who to Invite to Requirements Workshops	43
	Contribution to Meeting by Role and Stakeholder Type	44
	Types of Meetings That a BA May Be Asked to Participate In ..	45
	Facilitated Meeting Work Plan	45
	Meeting Readiness Checklist	49
	Standard Meeting Agenda	49
	Facilitated Meeting Rules and Guidelines	50
	Facilitated Meeting Expectations	50
	Approvals Process Expectations	51

- Review Meeting (Structured Walkthrough and Gate Review)51
 - Prerequisites, Timing Considerations51
 - Who to Invite51
 - Checklist: Questions for the Interview52
 - Structured Walkthrough Guidelines55
- Meeting Objective: (Kick-Off Meeting) Identify Opportunities and Challenges55
 - Prerequisites, Timing Considerations55
 - Input Documents55
 - Deliverables55
 - Who to Invite56
 - Checklist: Questions for the Interview56
- Meeting Objective: Identify Stakeholders and Interests56
 - Prerequisites, Timing Considerations56
 - Input Documents56
 - Deliverables57
 - Who to Invite58
 - Checklist: Questions for the Interview58
- Meeting Objective: Analyze Impact on Business Services and Processes60
 - Prerequisites, Timing Considerations60
 - Input Documents60
 - Deliverables61
 - Who to Invite61
 - Checklist: Questions for the Interview62
- Meeting Objective: Analyze Risk63
 - Prerequisites, Timing Considerations63
 - Input Documents64
 - Deliverables64
 - Who to Invite64
 - Checklist: Questions for the Interview64
- Meeting Objective: Requirements Management—Setup and Planning66
 - Prerequisites, Timing Considerations66
 - Input Documents66
 - Deliverables66
 - Who to Invite66
 - Checklist: Questions for the Interview66

Meeting Objective: Define Internal Workflow for End-to-End Business Processes	68
Prerequisites, Timing Considerations	68
Input Documents	68
Deliverables	68
Who to Invite	69
Checklist: Questions for the Interview	69
Meeting Objective: Describe Users	69
Prerequisites, Timing Considerations	69
Input Documents	69
Deliverables	71
Who to Invite	71
Checklist: Questions for the Interview	72
Meeting Objective: Identify User Tasks	72
Prerequisites, Timing Considerations	72
Input Documents	72
Deliverables	73
Who to Invite	74
Checklist: Questions for the Interview	74
Meeting Objective: (Static Modeling) Define Business Concepts, Objects, and Rules	74
Prerequisites, Timing Considerations	75
Input Documents	75
Deliverables	76
Who to Invite	76
Checklist: Questions for the Interview	77
Meeting Objective: Define Non-Functional SLRs	79
Prerequisites, Timing Considerations	79
Input Documents	79
Deliverables	80
Who to Invite	80
Checklist: Questions for the Interview	80
Meeting Objective: Gather Detailed User Requirements	86
Prerequisites, Timing Considerations	86
Input Documents	86
Deliverables	87
Who to Invite	87
Checklist: Questions for the Interview	87

	Meeting Objective: Reuse User Requirements	.90
	Prerequisites, Timing Considerations	.90
	Input Documents	.90
	Deliverables	.90
	Who to Invite	.91
	Checklist: Questions for the Interview	.91
	Meeting Objective: Analyze the Life Cycle of Business Objects	.92
	Prerequisites, Timing Considerations	.92
	Input Documents	.93
	Deliverables	.93
	Who to Invite	.93
	Checklist: Questions for the Interview	.94
	Meeting Objective: Assess the Results of an Iteration	.95
	Prerequisites, Timing Considerations	.95
	Input Documents	.95
	Deliverables	.96
	Who to Invite	.96
	Checklist: Questions for the Interview	.96
	Meeting Objective: Gather Service Desk Requirements	.97
	Prerequisites, Timing Considerations	.97
	Input Documents	.97
	Deliverables	.97
	Who to Invite	.98
	Checklist: Questions for the Interview	.98
Chapter 3	Standards and Guidelines Used in This Book	.101
	ITIL	.101
	IIBA and BABOK®	.109
	UML	.115
Chapter 4	BA Toolkit	.117
	BA Tools Overview	.117
	Activity Diagram	.120
	Activity Diagram Example	.121
	Symbol Glossary: Activity Diagram—Key Modeling Elements	.122
	Symbol Glossary: Activity Diagram—Modeling Elements for Complex Diagrams	.127
	Block Diagram	.128
	Block/Swimlane Workflow Diagram Example	.129
	Symbol Glossary: Block Diagram	.130

Business Process Diagram (BPD)	132
BPD Example	133
Symbol Glossary: BPD Flow Objects (with UML Conversion Chart)	135
Business Process Modeling	141
Business Use Case	142
Business Use-Case Diagram Example	143
Symbol Glossary: Business Use-Case Diagram	144
Cause-and-Effect Diagrams	146
Class Diagrams and Static Model	148
Class Diagram Example	149
Symbol Glossary: Class Diagram	151
Communication Diagram	157
Communication Diagram Example	158
Symbol Glossary: Communication Diagram	159
Data Flow and Context Diagrams	160
DFD Example	161
Symbol Glossary: Data Flow Diagram	164
Decision Table/Tree	166
Decision Table Example	167
Interviewing with Decision Tables	167
Entity Relationship Diagram (ERD) and Data Model	170
Entity Relationship Diagram Example	171
Symbol Glossary: Entity Relationship Diagram	172
The Five Whys	174
Flowchart	175
Flowchart Example and Symbols	176
Functional Decomposition Chart	177
Functional Decomposition Chart Example and Glossary	178
FURPS+	179
FURPS+ Checklist	179
Object Diagram	181
Object Diagram Examples	182
Symbol Glossary: Object Diagram	184
Pareto Analysis (Pareto Diagrams)	185
Pareto Diagram Examples	185
How to Perform Pareto Analysis	188
Requirements Attributes Table	189
Requirements Attributes Table Example	190

Requirements Traceability Matrix191
 Requirements Traceability Matrix Example192
 Role Map193
 Role Map Example and Glossary194
 Root-Cause Analysis196
 Root-Cause Analysis Work Plan for the BA197
 Sequence Diagram198
 Sequence Diagram Example199
 State-Machine (Harel Statechart) Diagram201
 State-Machine Diagram Example202
 Symbol Glossary: State-Machine Diagram203
 State-Machine Diagram: Advanced Modeling Elements207
 Structured Walkthroughs210
 System Use Cases (and Diagrams)211
 Key System Use-Case Terms213
 System Use-Case Diagram Example214
 Symbol Glossary: System Use-Case Diagram215
 Use-Case Analysis219
 Key Points about Use Cases220
 Use-Case Goal Levels220
 Use-Case Analysis for Different Objectives222
 Use-Case Writing Guidelines225

Chapter 5 Tips and Checklists227

Checklist: Requirements Investigation Methods227
 Tip: What to Do When Key Participants Can't or Don't Show227
 Checklists: Change Advisory Board228
 Checklist of Potential CAB Members228
 CAB: Standard Items for Review229
 Tip: ITIL Seven Rs of Change Management229
 Tips: Five Keys to Requirements Management230
 Tips: Planning Iterations230
 Tips: SMART Requirements231
 Checklist: Features231
 Tip: Naming a Process231
 Tips: How to Spot the Static Modeling Elements from the
 System Use-Case Model232
 Tips: Determining How Much Static Modeling to Do233
 Tips: Managing Risk233
 Tip: Risk Assessment Matrix233

Checklist: Risk Types	234
Checklist: ITIL Risk Types	234
Checklist: Other Risks the BA Should Be Aware Of	235
Risk-Management Strategies	235
Tips: Quality Assurance (QA)	235
Tip: Testing Throughout the Life Cycle with the Service V-Model	235
Checklist: Test Types	237
Tips: Structured Testing Guidelines	238
Checklist: Selecting Solution Providers	239
Chapter 6 Templates	241
Business Requirements Document (BRD) Template	241
BRD Table of Contents	243
Version Control	245
External References	245
Glossary	245
Executive Summary	245
Product/Solution Scope	248
Business Case	248
Business Services and Processes	248
Actors	250
Business Rules	252
State Diagrams	252
IT Requirements	252
Test Plan	256
Deployment Plan	259
End-User Procedures	259
Post-Implementation Follow-Up	260
Other Issues	260
Sign-Off	260
Alternative Requirements Packaging	260
Business Use-Case Description Template	262
System Use-Case Description Template	267
Service Level (Non-Functional) Requirements Template	271
Service Level Type	271
Overview	271
System-Wide Capabilities	272
Usability Requirements	273
Reliability Requirements	274

Performance Requirements	275
Supportability Requirements	276
Testing Requirements	277
Training Requirements	277
Capacity Requirements	277
Backup/Recovery Requirements	277
Other Constraints	277
Legal and Regulatory Requirements	278
Risk Analysis Table Template	278
Test Script Template	278
Vision Document Template	280
Positioning	280
Key Stakeholder and User Needs	280
Stakeholders and Interests	280
Service/Product Overview	281
Assumptions	281
Dependencies	281
Capabilities	281
Requirements Work Plan Template	283
Purpose	283
Document Overview	283
Organization	283
Requirements Repository	284
Risk Management Plan	285
Requirements Acceptance Plan	286
Requirements Management Metrics Plan	286
Client Product Acceptance Plan Template	287
Purpose	287
Acceptance Responsibilities	287
Change Acceptance Criteria	288
Change Acceptance Schedule	288
Acceptance Environment	288
Product Acceptance Tools, Techniques, and Methodologies	288
Appendix A Glossary of BA Terms	289
Appendix B Acronyms	385
Appendix C Further Reading	389
Index	393
